

Research interests

In my research, I am mostly interested in mathematical statistical physics. In my PhD I studied a certain type of interacting particle systems called kinetically constrained models originally introduced in order to understand glassy materials; where my main focus was on their behavior in a disordered environment.

Education

- | | |
|-----------|---|
| 2016–2019 | PhD. in Mathematics.
Paris Diderot University, under the supervision of Cristina Toninelli. |
| 2014–2016 | M.Sc. in Theoretical Physics.
École Normale Supérieure, Paris. |
| 2010–2014 | B.Sc. in Mathematics and Physics.
Technion, Haifa. |

Work and Research

- | | |
|-----------|--|
| 2017–2019 | Teaching assistant , <i>Paris Diderot University</i> . |
| 2016 | Research internship in statistical physics , <i>LPTENS</i> , under the supervision of Kay Wiese. |
| 2015 | Research internship in probability , <i>LPMA</i> , under the supervision of Giambattista Giacomin and Cristina Toninelli. |
| 2014 | Instructor in an experimental physics course , <i>Technion's physics department</i> . |
| 2013 | Section editor in "Netgar" , <i>Technion's mathematics department's journal</i> . |
| 2013 | North Rhine-Westphalia scholarship program , <i>University of Bielefeld</i> , research in experimental physics and nanotechnology. |
| 2012 | Kupcinet Getz summer school , <i>Weizmann Institute of Science</i> , research internship in probability under the supervision of Itai Ben-jamini. |

Awards

2007	Honorable mention , <i>Asian Physics Olympiad</i> , Shanghai, China.
2007	Silver Medal , <i>International Chemistry Olympiad</i> , Moscow, Russia.
2007	3rd place , <i>National mathematics Tournament of Towns</i> .
